

JANUARY	FEBRUARY	MARCH	APRIL
<p>Bundles are a series of inter-related courses meant to help you truly master a set of skills. Each bundle is \$500 per webex connection, <i>not per student</i>. So gather all your staff around the session and maximize your training dollars!</p> <p>Though bundles are meant to be taken together as a package, you may sign up for any one class within a bundle, and pay the single class rate of \$150.00 per webex connection.</p>	<p>Or you may 'Create- Your-Own-Bundle' and purchase <i>any</i> four classes for \$500. Web-based training with CDM is extraordinarily flexible and customizable – we're centered on what you want to know!</p> <p>18th NTDS Benchmarking (Unique002/Report101)</p> <p>25th NTDS Data Submission (Unique 002)</p>	<p>TRAINING CONFERENCE COLORADO – MARCH 11-12TH, 2010</p> <p>Reporting I Bundle:</p> <p>4th Report Fundamentals (Report100) 18th Intro to Crosstabs (Report102) 25th Descriptive Statistics (Report104)</p>	<p>Reporting I Bundle (continued): 1st Detail Reports (Report105/202)</p> <p>Reporting II Bundle:</p> <p>8th Output Graphing (Report209) 15th Trending (Report201) 22nd TRISS (Report106) 29th Drill Down Reporting (Report107)</p>
